II. Traffic Calming

	Project	Total Cost Estimate	Description
1	Oakcliff Rd Traffic Calming Phase II	\$300,000.00	Phase II of Oakcliff Rd traffic calming, including asphalt resurfacing, additional landscaping, and some sidewalk. Phase I is currently under construction.
2	Chestnut Rd Traffic Calming Phase I	\$500,000.00	Phase I of Chestnut Rd traffic calming, including center island, chicanes, striping, minimal landscaping. Project has already been designed and bid.
3	Chestnut Rd Traffic Calming Phase II	\$350,000.00	Phase II of Chestnut Rd traffic calming, including asphalt resurfacing, additional landscaping, and some sidewalk. Project has already been designed and bid.
4	English Oak Traffic Calming	TBD	No scoping has been done at this time. Details and cost estimates are TBD.
5	Winters Chapel Rd Traffic Calming	\$1,300,000.00	Winters Chapel Rd traffic calming concept development has been completed, as well as the survey. Design and bidding have yet to take place. The cost estimate is conceptual.
	Total:	\$2,450,000.00	

III. Grant-Leveraged Projects

Potential Projects List

September 2017

These projects are eligible for LCI grants up to \$4 million with a local match of 20% (the 10% match for the New Peachtree Rd. Project is a rare exception). The New Peachtree Road project has dedicated funding.

	Project	Total Cost	Local Match	Description
1	New Peachtree Road Pedestrian Improvement Project	\$2,800,000	\$280,000	Improvements will include cycle track/ bike lanes, sidewalks/ crosswalks, streetscapes, other pedestrian amenities, resurfacing as well as four traffic signals at Park & Central avenues, the MARTA parking deck and Stewart Rd. The project has been approved for LCI funds. Design phase has been completed. Currently in ROW phase.
2	Shallowford Road Pedestrian Improvement Project	\$3,480,000	\$696,000	Planned improvements include cycle track, sidewalks/ crosswalks, streetscapes, other pedestrian amenities, resurfacing, crossing and traffic signals at New Peachtree Rd.
3	Buford Highway/ I-285/ Motors Industrial Way Area Congestion Mitigation Project	\$1,116,000	\$223,200	This project would add an isolated on-ramp from Buford Hwy. into I-285 to reduce traffic storage problems on Buford Hwy. during peak traffic hours. The existing on-ramp would need to be widened to incorporate this; it could be combined with the realignment of Clearview Ave. & the addition of another eastbound lane from Motors Industrial.
4	Park Avenue Pedestrian Improvement Project	\$1,383,633	\$276,727	The Park Avenue Corridor Pedestrian Improvements Project will include sidewalks/ crosswalks, streetscapes, other pedestrian amenities, resurfacing, crossing and traffic signals upgrades at Buford Hwy. and New Peachtree Rd. The project has been pre-qualified for LCI Implementation funding. This project can be incorporated into the covered road project.
	Total:	\$6,259,633	\$1,475,927	

15% Maintenance Projects

Potential Projects List

September 2017

	Project	Total Cost Estimate	Description
1	City-Wide Resurfacing	\$1,425,000	This includes projects in order of priority (See Street Inventory). For a mile of two-lane street, resurfacing typically costs approximately \$100,000.
