

Atlanta Public Schools COVID-19 Weekly Case Report

When APS school nurses are notified of a confirmed-positive COVID-19 case, they submit a form to the APS Health Services department. These case reports are shared with the Georgia Department of Public Health each Friday and also used for monitoring and tracking of cases and outbreaks within the district. When a positive case is reported amongst students or staff in a school or extra-curricular environment, COVID-19 protocols go into effect.

This summary includes self-reported cases and presumptive positives from surveillance testing of COVID-19 (and associated exposures) reported in the last week among students and staff who have been on-campus.

Blanks indicate that no data were submitted, while 0s indicate that the nurse confirmed no cases. A case is defined as an individual with a laboratory-confirmed COVID-19 positive from either antigen (rapid) or PCR (nasal swab) tests; positive cases are self-reported. Exposures are the close contacts of cases from school, work, and extracurricular settings. Exposures are aggregated from individual case reports and may not represent unique exposures.

February 13, 2021 - February 19, 2021

Includes all cases reported to schools during this 7-day timeframe
